

PoP Modding Community 2019+2020 Highlights

January 30, 2021

This overview does neither include the many things discussed on the Princed forum, nor all the walkthrough videos of mods that were published. More than 30 tricks were discovered in these two years. Also not mentioned below: one or more people are continuing with the BK-0011M port, and Karlgamer got a new PoP1 for DOS speedrun world record.
